EXPERIENCE

Full Stack Developer Intern

Oasis Infobyte | Dec 2025 - Feb 2026

- Developed reusable and responsive UI components using React.js, JavaScript, Tailwind CSS, and shadcn/ui to improve maintainability and user experience across devices.
- Integrated frontend applications with RESTful APIs, handling data fetching, state management, and dynamic rendering to support core application functionality.
- Prepared and maintained API documentation, including endpoint specifications, request/response structures, and integration guidelines to support development workflows.
- Collaborated on full-stack development tasks, contributing to both frontend implementation and backend integration while following structured development workflows.
- Utilized Git and GitHub for version control, code management, and team collaboration, following industry-standard development practices.

SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Redux Toolkit, Typescript, Tailwind CSS, Vite

Backend: Node.js, Express.js, REST APIs, MySQL, MongoDB, Supabase

Developer Tools: VS Code, Postman, Git, GitHub

Deployment: Vercel, Render

Core Concepts: Authentication (JWT), State Management, API Integration

PROJECTS

Quickflow - Workflow Management SaaS

- Built a multi-tenant SaaS platform with secure organization-level data isolation and Role-Based Access Control (RBAC) to manage teams, users, and workflows.
- Developed a real-time Kanban board with task assignment, priority tracking, due dates, and role-aware permissions to improve team collaboration and workflow visibility.
- Created productivity analytics dashboards featuring workload distribution, overdue task monitoring, burnout-risk detection, and CSV reporting for actionable team insights.

Haveit - Full-Stack Grocery & E-Commerce Platform

- Developed a full-stack grocery delivery platform with product browsing, cart management, address handling, and end-to-end order placement workflows.
- Implemented secure authentication and payment workflows using JWT, OTP-based password recovery, Stripe Checkout, Stripe Webhooks, and Cash-on-Delivery support.
- Built admin and user management modules for inventory control, category management, product uploads, order tracking, and overall platform operations.
