PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience in MERN stack development, REST API integration, and scalable SaaS platform architecture. Proficient in React.js, Node.js, Express.js, MongoDB, and MySQL, with demonstrated ability to build secure, production-grade web applications featuring JWT authentication, real-time features, and Stripe payment integration. Holds AWS Cloud Practitioner certification and a B.Sc. in Information Technology (CGPA 8.7). Seeking a full-stack or frontend developer role to contribute to impactful engineering teams.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Redux Toolkit, Tailwind CSS, Vite, shadcn/ui

Backend: Node.js, Express.js, REST APIs, MySQL, MongoDB, Supabase

Tools & Deployment: Git, GitHub, VS Code, Postman, Vercel, Render

Core Concepts: JWT Authentication, Role-Based Access Control (RBAC), State Management, API Integration, Stripe Payments, OTP Workflows

EXPERIENCE

Full Stack Developer Intern — Oasis Infobyte | Dec 2025 – Feb 2026

- Built reusable, responsive UI components with React.js, TypeScript, Tailwind CSS, and shadcn/ui, improving maintainability and cross-device user experience.
- Integrated frontend modules with RESTful APIs, implementing efficient data fetching, state management, and dynamic rendering to support core application features.
- Authored and maintained API documentation covering endpoint specifications, request/response schemas, and integration guidelines for development teams.
- Contributed to full-stack feature delivery, collaborating across frontend and backend layers following structured, agile development workflows.
- Managed source control and team collaboration using Git and GitHub, following industry-standard branching and code review practices.

PROJECTS

Quickflow – Workflow Management SaaS

- Architected a multi-tenant SaaS platform with organization-level data isolation and Role-Based Access Control (RBAC) to securely manage teams, users, and workflows.
- Developed a real-time Kanban board with task assignment, priority tracking, due dates, and role-aware permissions to enhance team collaboration and workflow visibility.
- Built productivity analytics dashboards featuring workload distribution, overdue task monitoring, burnout-risk detection, and CSV report exports for actionable insights.

Haveit – Full-Stack Grocery & E-Commerce Platform

- Developed an end-to-end grocery delivery platform with product browsing, cart management, address handling, and complete order placement workflows.
- Implemented secure authentication and payment workflows using JWT, OTP-based password recovery, Stripe Checkout, Stripe Webhooks, and Cash-on-Delivery support.
- Built admin and user management modules for inventory control, category management, product uploads, order tracking, and overall platform operations.

EDUCATION

B.Sc. Information Technology — University of Mumbai – B.N.N. College | 2021 – 2024 | CGPA: 8.7

HSC (Class 12) – Science — Shree Halari Visa Oswal School & College, Maharashtra State Board | 2020 – 2021 | 78.00%

SSC (Class 10) — Kakatiya High School, Maharashtra State Board | 2018 – 2019 | 59.20%

CERTIFICATIONS

AWS Cloud Practitioner Essentials — AWS Training & Certification | Feb 2026 – Mar 2026

Advanced Full Stack Web Development with MERN — Quality Software Technologies, Thane | Oct 2024 – Aug 2025
